

Isabella Njunkom Kindo
Aspiring Full-Stack Developer | Go & JavaScript
Vantaa, Finland | isabellabell400@gmail.com
github.com/bellabell1 | linkedin.com/in/isabella-njunkom-kindo-bb3b07251

Profile

Full-stack developer in training at **Kood/Sisu** with hands-on experience building applications using **Go** and **JavaScript**. Programming since 2022, with projects spanning frontend and backend. Seeking an internship to apply and expand my skills in real-world software development.

Education

- **Kood/Sisu** — Software Development Program | Oct 2025 – Present
- **Udemy** — The Complete Web Development Bootcamp (Angela Yu) | Dec 2023
- **freeCodeCamp** — Front End Development Libraries Certification | Jul 2023

Projects

To-Do List Web Application

- Built an interactive task manager using **HTML, CSS, JavaScript**
- Features include dynamic updates and task tracking
- GitHub: github.com/bellabell1/my-todo-app

Path Finder Application (Go)

- Simulates multiple trains in a railway network
- Focused on safe routing and algorithmic logic

Car Viewer Web App (Go, JS)

- Fetches and displays car data via **REST API**
- Implemented filtering and dynamic user interface

Technical Skills

- **Languages:** Go, JavaScript, HTML, CSS
- **Tools & Libraries:** React, Redux, Git, GitHub
- **Concepts:** REST APIs, Responsive Design, Version Control

Additional Experience

- **Forage Simulations:** Skyscanner (Frontend), Commonwealth Bank (Software Engineering)
